

Bramshaw Cricket Club

Guidelines for Transport of Young People

(for players under the age of 18)

Particular care should be shown by Coaches, Managers and Parents when making travel arrangements which include lifts being given to young players the following guidelines :-

1. Coaches and Managers should not ask a young player to be the only passenger in a car that is driven by someone other than their parent or guardian.
2. Parents to be solely responsible for arranging transportation of Young people to and from games and training sessions.
3. Parents, Coaches and Managers who offer a lift to a young player other than their own son or daughter, must avoid that young player being the only passenger.
4. Where possible Coaches and Managers will estimate a finish time for matches. Parents are asked to collect players promptly and not expect a Coach or Manager to wait, supervising their son or daughter after a match has finished.
5. Parents are also asked to remember that inclement weather can often curtail cricket matches. Wherever possible parents should keep in contact with their son / daughter, the Coach or Manager by phone, 'particularly if there is a risk of a delayed pick up.
6. Managers and coaches must avoid young players being left alone awaiting pick up after a game.
